OLD FAMILY FEUD WILL CONTINUE ENDS IN KILLING.

Jim McCoy Shoots John Hancock to Death in a Fight Near Ozark, Mo.

MEN ARE BROTHERS-IN-LAW.

Dead Man Nearly Slain in a Previous Battle-Assailant Arrested by Constable Who Witnesses Fight.

Springfield, Mo., Aug. 13.-Jim McCoy shot and killed John Hancock, his brother-inlaw, five miles south of Ozark, the result of a long family feud. Hancock, about a year o, was cut severely by McCoy.

The first fight took place on the p highway, and the contestants were alone. The men fought with knives and clubs, and Hancock was one of the worst mutilated men ever carried away from a private battlefield. He lingered between life and death for several weeks, and at last got on his

Hancock was whittling on a stick when McCoy came up to the crowd. Han-cock dropped his stick and started toward McCoy, according to one report of the bat-tle. McCoy backed off, and as he retreated

The sight of the gun frightened Har and he turned to run. McCoy pursued Han-cock, firing as he ran. Hancock took refuge behind a tree. McCoy ran to the tree and tried to shoot his enemy. Hancock dodged for some time, but McCoy kept poking his gun around the tree. At last he fired a ball into Hancock's neck and the fight was over. Hancock died almost instantly.

FORMER BRAKEMAN CUTS CONDUCTOR DALY'S THROAT.

William Callahan Tells Police That He Acted in Self-Defense During a Fight on a Street Corner.

"I tried my best to cut his head off." William Callahan, who says his home is at Evansville, Ind., made this statement to Lieutenant Patrick McKenna of the Central District last night, when he was brought in by Special Officer Murphy on the charge of

Thomas Daly, a railroad conductor, who refused to give the police his address, lies at the City Hospital bearing every evidence that Callahan's statement to Lieutenant McKenna is the truth. His throat is cut

from ear to ear and the hospital surged have little hope of saving his life. Knowing his condition to be serious, Daly refused to talk of the fight, and, although Callahan was brought before him for ide tification, he refused to say whether the

prisoper was the man who cut him. He is held as a prisoner at the hospital.

Callahan had washed the blood from Daly's wound off the razor with which he cut the patient when Special Officer Murphy arrested him. He was standing on the cor-ner of Sixth and Market streets when found

"Why dod you cut this man?" Lieutenant McKenna asked the prisoner when he was brought into the Central District Station.

"Because he reached back to his hip pocket as if to draw a revoiver, and said he wound kill me," answered Caliahan.

"I tried my best to cut his head of when he said that. I only acted in self-defense."

The cutting occurred on the corner of Sixth and Market streets, in the midst of a crowd of men, women and children, who were watching the fire at Mound City Sho Company's factory.

The police were unable to find any person who could give any information as to a cause of the fight, but from remarks made by Caliahan and Daly it is believed the quarrel started in a saloon on the corner of Sixth and Market streets over the merits of two bartenders, and was revewed on the sidewalk.

Caliahan told the police that he had been employed as a brakeman and came to St. Louis only a few days ago.

SOUTHERN INTEREST IN SEABOARD LINE DENIED.

President John Skelton Williams Says the Situation Is Highly Satisfactory to Him.

New York, Aug. 13.-President John Skelton Williams of the Seaboard Air Line Rallway, made the following statement to-day: "The report that Southern Rallway interests have acquired an interest in the Seaboard Air Line system is incorrect. "As is well known, Messrs. Pierce and Yoakum are closely identified with the St. Louis and San Francisco-Rock Island sys-tem, and it is reasonable to suppose that this latter system and the Seaboard Air Line system will hereafter be operated in thorough harmony, and to their mutual ad-

thorough narmony, and to their mutual advantage.

"Through this association the Rock island system will be furnished with direct outlets at seven scaports on the Atlantic Ocean, and the Guif of Mexico, including Baltimore, Norfolk, Va., Wilmington, N. C., Savannah, Ga., Fernandina, Jacksonville and Tampa, Fla. The situation is highly satisfactory to me."

YOAKUM BELIEVES IN THE SOUTH.

Says Birmingham's Tonnage Will Equal That of Pittsburg. While the acquisition of the controlling interest in the Seaboard may be accepted as an indication that President Yoakum of the Frisco, and unquestionably the ruling spirit in the Rock Island, has great faith in the possibilities of the South and South

spirit in the Rock Island, has great faith in the possibilities of the South and Southeast, his expressed belief as to the future of this section of the United States makes the recent deal seem but a small part of what he thinks can be done.

Discussing the possibilities of the South, and particularly the section about Birmingham, Mr. Yoakum is quoted as saying: "In twenty-five years the tonnage out of Birmingham will be as great as the present tonnage of Pittsburg, and that is the greatest of any city in the world."

Ever since President Yoakum has been in control of the Frisco he has had an eye on the chance of getting into the South. Repeatedly he has made offers for roads which would give him an Atlantic port and access to the rich mineral territory in Alabama, but has heretofore always declined propositions made, considering the price too high.

While waiting his chance, the opportunity of getting his line into New Orleans offered, and, unhampered as he is by the Executive Committee, he quickly accepted the opportunity, shortly afterwards purchasing the plant of the Kirby Lumber Company, which has enormous lumber interests in Texas and Louisiana, and from which a Southern line can have a steady northbound tonnage when shipments fail.

Although his faith in the advantages of the Southeast ports have not been shaken, President Yoakum, it is stated, has steadily refused tempting offers from the Southern and other lines for right of way over their tracks, preferring to wait until he could own his own line, but while waiting devoting all of his energies to other propositions.

On short notice the opportunity came, and

on short notice the opportunity came, and Mr. Yeakum did not let it pass.

As a result the Frisco has seven ports to the Atlantic from a district rich in mineral and lumber, penetrated in many points by its tracks and to a great extent free from competition.

competition. What future plan Mr. Yoakum may have is causing considerable theorizing. By many it is believed that he will either build or nurchase a connection from the Evansville and Terre Haute to Birmingham, thereby getting a direct route to Chicago from a district in which he is a most enthusiastic believer.

believer.
Unlike the Goulds, Mr. Yoakum is not averse to owning lines of steamships, and it is believed that the Frisco-Rock Island will soon promote if not control a line of steamships touching at its many ports. INSTRUCTIONS SENT TO MAJOR CASEY

Merchants' Bridge Case Arouses Considerable Interest in Washington. Telegraphic instructions were received esterday morning by Major Casey of the United States Engineers, from General Gillespie, Chief of Engineers, in which Major Casey was instructed to make every

effort to locate the officers of the Merchants' Bridge Company, and deliver to them Secretary Root's letter, in which information is requested in regard to the charges preferred against the company of violating its charter by having an official interest in other bridges leading from East St. Louis to St. Louis.

In case he was unable to find the officials of the Merchants' bridge, Major Casey was instructed to serve notice upon them by publication.

instructed to serve notice upon them by publication.

Major Cassy's original instructions were for him to present Secretary Root's letter to the general manager of the bridge company, but as the bridge company is without a general manager, Major Casey requested further instructions, in the meantime making an effort to see C. K. D. Walsh, vice president of the Merchants' Bridge Company, who at that time was out of the city.

pany, who at that time was out of the city.

Before Washington could be heard from Mr. Walsh returned to St. Louis and called upon Major Casey, who gave him a copy of Secretary Root's letter.

It is stated that Mr. Walsh will immeliately respond by letter to the request of the Secretary of War, that the charges made against the company shall be answered, and that Major Casey will take no further steps in the matter until instructed by the Secretary of War.

It is stated that the War Department is much interested in the outcome of this case, and is keeping close watch for developments.

THREATENS A RAID TO-MORROW.

This plan will be put into operation at once, according to Attorney Cantwell. During the morning Attorney Cantwell claimed to have secured a confession from one of the Harlem Village Trustees to the effect that money had been freely distributed among certain members of the board for their work in behalf of the race track.

A raid on the Harlem track will be made Saturday afternoon, according to Attorney Cantwell. Chief Lange, now under suspension, will lead the attack as a special constable. A posse will be gathered and it is said fifty citizens have offered aid. Once inside the track—and it is given out that the track will be entered at any cost—the spectators will be called on for aid and any refusal will be met with immediate arrest. Hawthorne race track is the next objective point in the antigambling crusade conducted by Attorney Robert Cantwell. The Hariem meeting ends Saturday, when the local races will start in at Hawthorne. Friday night he asked Alma to go to a summer garden with him, but the child refused to go on account of an engagement she had made for a picnic on the following morning. This enraged Barnes, who stabbed her. Several ribs were cut through by the force of his thrusts. The pericardium was severed by the blade, which necessitated the operation of removing the heart. the country.

CONTROL OF MEXICÁN CENTRAL. Believed That Rock Island Has Not

Made the Deal. But little credence is given by rallway officials to the statement that the Rock Isand has gained control of the Mexican Centra'.

A prominent capitalist, discussing the matter, said: "The attitude of the Mexican Government in regard to the investment of foreign capital in railroads in Mexico is by no means encouraging, and I should be surprised if under the conditions any deal requiring a casa consideration was made. "It is quite evident, juoging by the action of the Government toward the Mexican National Railroad that governmental control of railroads is desired, and therefore foreign capital can expect but little in the way of concessions from the Government, either in the way of land grants, money subsides or other priviliges for building railroads in the land of the Montezumas, Indeed, I believe that, if anything, the Government will piace obstructions in the way of such enterprises if backed by foreign capital."

Will Assist in Consecration of St. Louis Priest at Rome To-Morrow.

POPE TO RECEIVE PRELATE.

Cardinal Macchi Will Bestow the Pallium on Monday, and the Archbishop of Manila Will Leave Rome at Once.

Cardinal Gibbons, who attended the con-clave which chose Pope Pius, is still in Europe and will go to Rome to assist in the ceremonies of consecrating the Reverend Father J. J. Harty of St. Leo's Par-ish, Archbishop of Manila.

The ceremony of the consecration will take place to-morrow. Father Harty is personally acquainted with Cardinal Gibbons, who is anxious to do him the honor of assisting to elevate him to his high po The actual ceremony will be perfo

by Cardinal Satolli. Father Harty knew Satolli while he was the Apostolic Delegate to this country, and afterward met him in Rome. It is at Father Harty's request that this Cardinal will perform the consecration. A cablegram from Rome yesterday tells of

Cardinal Satolli's proposing the appointment of Father Edward Fowler as a doed the request, and a brief making the appointment was issued immediately. The post carries with it the title of monsigno FATHER FOWLER, SECRETARY. Father Fowler is at present a missionary

apostolic, and will accompany Father larty to the Philippines as his secretary. Father Fowler and Father Harty were reared together, and attended the same schools at the same times. He was Father Harty's choice for secretary, and accom-

Harty's choice for secretary, and accompanied him to Rome.

The Pope will receive the new Archbishop of the Philippines and Father Fowler in private audience Sunday, at which time there will be a discussion of the policy Father Harty is to pursue in his new field. On Monday Father Harty will receive the pallium from Cardinai Macchi, and will leave Rome the same night, coming immediately to St. Louis.

No definite plans have been made, but it is conceded that he will receive a royal reception from St. Leo's parishioners, and that his stay in the city from the time he arrives until he goes to the Philippines, the first of October, will be crowded with pleasing incidents.

LEAVES SITUATION UNCHANGED Arbitration Board Renders Decision in St. Joseph Troubles.

St. Joseph, Mo., Aug. 12.—The State Board of Arbitration and Mediation concluded its inquiry into the labor troubles in this city to-night and rendered a written decision to

the parties to the controversy.

It found that the employers had a right to employ and discharge their men without interference, and that the laboring man had interference, and that the laboring man had a right to organize. Both sides were scored for causing strikes or lockouts for "trivial" reasons or fancied wrongs. It was recommended to the Union men that they all apply for reinstatement in the positions they have left and that the employers take them back without pirejudice.

The decision leaves the situation practically the same as before, for the Employers' Association is determined to deal very firmly with the unions, and there is nothing in the finding of the board to cause the association to swerve from this purpose.

Red is the color of dange Red is the color or campen, whether on the semaphore or on the skin. When the face is reddened by eruptions, when boils break out on the body, or the angry red of sores and ulcers is displayed in the flesh, it is nature's danger signal. The blood is obstructed and tainted by impurities, and there can be no safety until the blood is

made pure. Dr. Pierce's Golden Medical Discovery purifies the blood, and removes the effete matter which clogs and corrupts it. It cures pim-ples, boils, eczema, scrofula, sores, ulcers and other consequences of impure blood.
